### CHILDREN BOOM THE CITY.

Baker City's Novel Plan to Advertise Baker in the East.

Two or three weeks ago the pupils of the Baker City schools at the instance and request of the Baker City Development League, wrote letters to their Eastern friends and kept copies of the addresses which they furnished to the secretary of the league. These addresses have been recorded and other literature is being sent to these people in the East both by the Baker City League and by the State League, says the Baker City Democrat.

The league makes an urgent request of the business men and property owners and citizens generally of Baker City and Baker county to do just what the children have done—write a letter to some friend in the East and send the address to the secretary. This will make a combination for advertising purposes that can not be beat. It is through this method largely that the resources of this territory will be represented to the intending homeseekers, and interested capitalists of the Middle West and East. If you only write one letter the result will be marvelous.

### DEBS GETS 500,000 VOTES.

Socialists Claim Candidate Shows Surprising Strength.

Leaders of the socialist party say that Eugene V. Debs, the party's candidate for president, polled over 500,000 votes in the recent election, or over 4 per cent of the vote polled, according to a story to be printed by the New York World.

In speaking of the division of the vote in the leading states, the secretary of the socialist party says in a statement:

"The states showing the greatest ratio of increase are Illinois, Ohio, Minnesota, Wisconsin, Pennsylvania, Michigan and California. The news from Washington estimates a large increase, but no figures are given. The only decreases reported are from Massachusetts and Colorado, the vote in the former state being half of that cast in the state election in 1903.

### \$95 NUGGET.

Found in the Dirt on Main Street in Helena.

Helena, Mont., Nov. 17.—While engaged in loading a wagon with gravel on West Main street yesterday, Joe Rumans, a city employe, noticed a bright spot in his shovel of dirt, and investigating, found it be a gold nugget, worth about \$95. It weighs three and a quarter ounces, and is a handsome piece. Mr. Rumans is greatly pleased with his find, and his day's work is about the most profitable he had ever done.

The spot where the nugget was picked up was thoroughly worked away back in the '60s by Ben Johnson. David Merritt and others, and was very rich. The gravel was brought up by windlass, and then thrown in the sluices. It is believed that this nugget was forked out with the heavy gravel in the early days.
